MESSAGE

Dear Colleagues and Friends,

On behalf of the Organising Committee, I would like to invite you to this year's 16th Advanced Neuroradiology Course, which will be held from 13– 14 October 2016 and the Pre-course Neurointerventional Workshop will be on 12 October 2016..

The Advanced Neuroradiology Course has grown in scope since its inception in 1999. Last 4 year's course saw the introduction of a hands-on workshop for residents and trainees. The Pre-course Neurointerventional Workshop introduced last year was overwhelming and successful.

The Course aims to update, refresh and as well as highlight advances in the practice of Neuroradiology and Head & Neck Radiology from a multidisciplinary approach.

The specially invited international and local faculty will share their expert knowledge and insights with the audience on the newest developments in their fields.

The course comprising lectures and discussion of diagnostic and interventional procedures, will be relevant to all doctors and healthcare professionals in neuroradiology, head & neck radiology, neurology, neurosurgery, head and neck surgery, oncology, and the other neuroscience disciplines.

We look forward to welcoming you at the Course.

Dr Bela Purohit

Course Director
